OBJECTIVE

I am looking to join the development world to bring great experiences to users whether it is through software development, game development, or web development.

PROJECTS

MULTIUSER MESSAGING SYSTEM | WEBDEV PROJECT

March 15th - 27th 2017

Worked with two partners to make a messaging system with multiple users. Featured a log-in system, chat-room, and interactive emoji selector. Used MySQL, PHP, JavaScript, and HTML.

MINESWEEPER GAME | JAVASCRIPT PROJECT

August 3rd 2017

Created a minesweeper game using JavaScript, HTML, and CSS. The game has all the features of the good old Windows minesweeper game and is styled after it as well.
